

Please please please do not weaken NJ's Do Not Call law. It has been a glorious blessing. I now get virtually no calls, where before I got several calls a day. Silence is blissful! I am disabled and getting to my phone can be a challenge, and is infuriating to do for a telemarketer. Unsolicited callers should not be allowed to invade our lives. If I've done business with someone I'll know how to contact them if I want to. I don't want them call me.
